Description

Extension **Product Markers** intended to mark products with graphic icons (or markers) and add text notes.

Now all important products will be labeled with graphic colored markers. They are immediately catch your eye and greatly simplify the search for the required information. Text notes remind you or the staff for additional information about product.

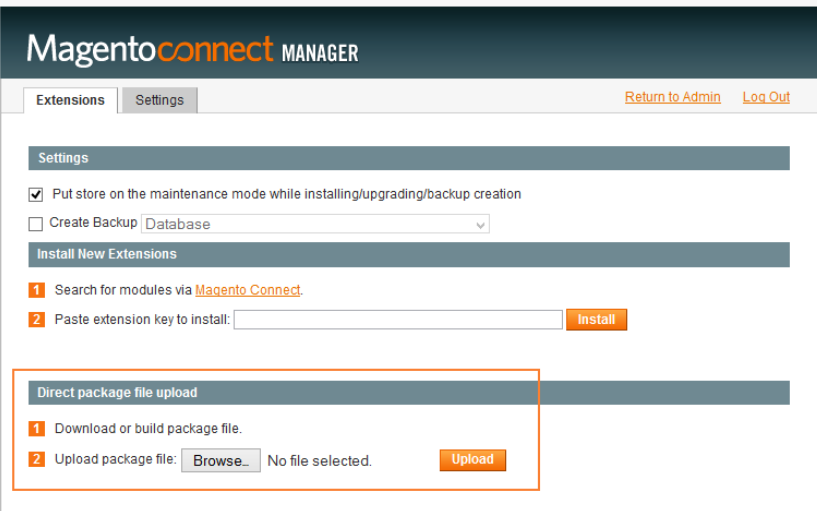

The module is able to:

- save your time and simplify work with products;
- create easy collaboration among multiple store managers;
- clearly highlight important products;
- provide additional information about products using text notes.

You can mark any product with marker right on the page with a list of all products. You can delete, edit existing markers and add new markers to system. There are several integrated marker icons in extension. Also you can use 2 free pack of icons (total of 80 icons) that come with the extension in separate folders.

Install

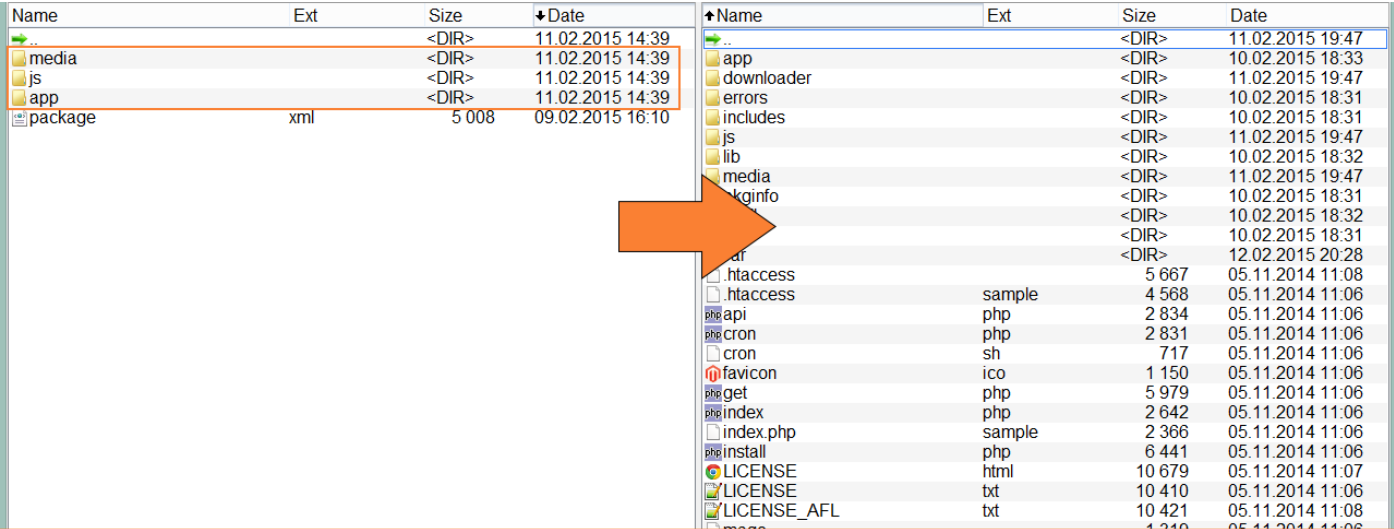

Go to **System - Magento Connect - Magento Connect Manager - Direct Package file upload**

The screenshot shows the Magento Connect Manager interface. The 'Settings' tab is active, and the 'Direct package file upload' section is highlighted with a red box. This section contains two steps: 1. Download or build package file. 2. Upload package file: with a 'Browse...' button and 'No file selected.' text, and an 'Upload' button.

Install

If you have Magento 1.4 or problems with **Direct Package file upload** then copy files from archive with extension to your server.

The screenshot shows a file manager interface with two panes. The left pane shows a list of files and folders: 'media', 'js', 'app', and 'package.xml'. The right pane shows a detailed list of files and folders, including 'app', 'downloader', 'errors', 'includes', 'js', 'lib', 'media', 'pkginfo', 'sample', 'api', 'cron', 'favicon', 'get', 'index', 'index.php', 'install', 'LICENSE', and 'LICENSE_AFL'. A red arrow points from the 'package.xml' file in the left pane to the 'app' folder in the right pane.

Copy files to server

Then go to **System - Cache Management** and refresh cache. Select all cache types, choose action **Refresh** and click on **Submit**. Also do **Flush Magento Cache** and **Flush Cache Storage**.

Cache Storage Management

Actions Refresh Submit

Additional Cache Management

[Flush Catalog Images Cache](#) Pregenerated product images files.

[Flush Swatch Images Cache](#) Pregenerated configurable swatches image files.

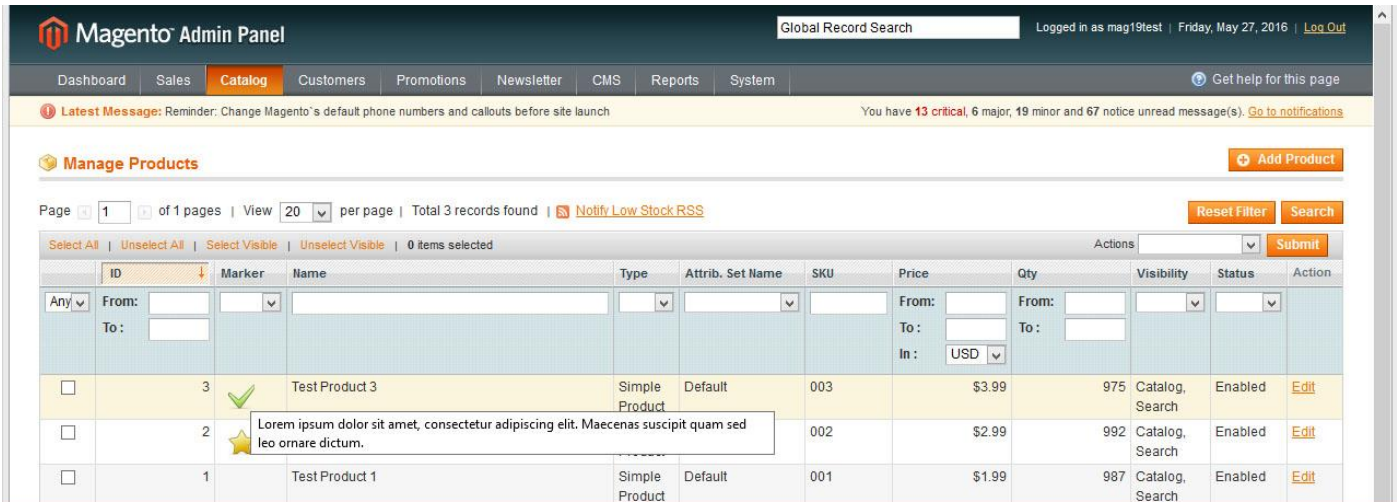

[Flush JavaScript/CSS Cache](#) Themes JavaScript and CSS files combined to one file.

Refresh and flush magento cache

Using extension

Using markers for products

Go to **Catalog — Manage Products**

The screenshot shows the Magento Admin Panel interface. At the top, there's a navigation bar with 'Catalog' selected. Below it, a 'Manage Products' section is visible. A table lists three products: 'Test Product 3', 'Test Product 2', and 'Test Product 1'. The 'Marker' column shows a green checkmark for 'Test Product 3', a yellow star for 'Test Product 2', and a grey square for 'Test Product 1'. A tooltip is shown over the star marker for 'Test Product 2', containing the text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas suscipit quam sed leo ornare dictum.'

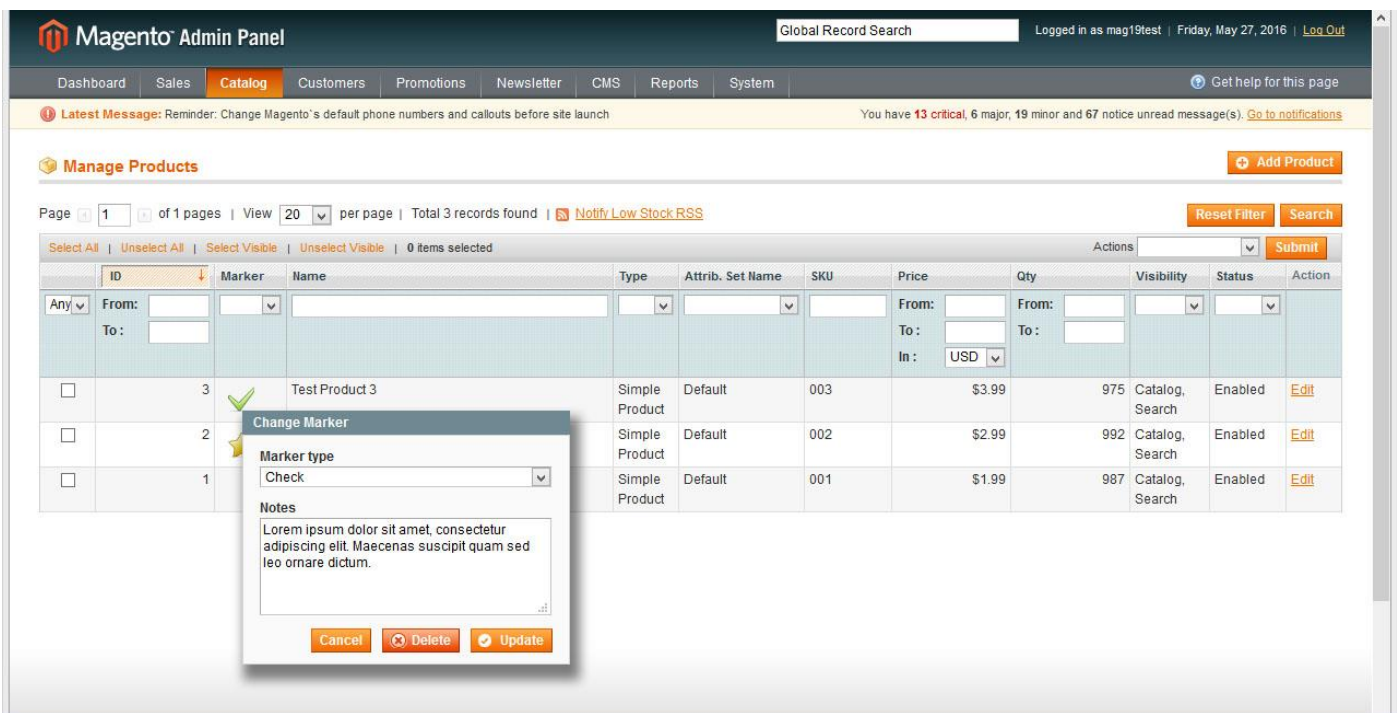

ID	Marker	Name	Type	Attrib. Set Name	SKU	Price	Qty	Visibility	Status	Action
3	✓	Test Product 3	Simple Product	Default	003	\$3.99	975	Catalog, Search	Enabled	Edit
2	★	Test Product 2	Simple Product	Default	002	\$2.99	992	Catalog, Search	Enabled	Edit
1	□	Test Product 1	Simple Product	Default	001	\$1.99	987	Catalog, Search	Enabled	Edit

Products with markers

Here you can:

- Set new marker and notes for any product
- Delete marker for product
- Change marker and notes for product

To set a new marker just click on any cell to the left of the product in the **Marker** column. To delete or edit any existing marker, click on it.

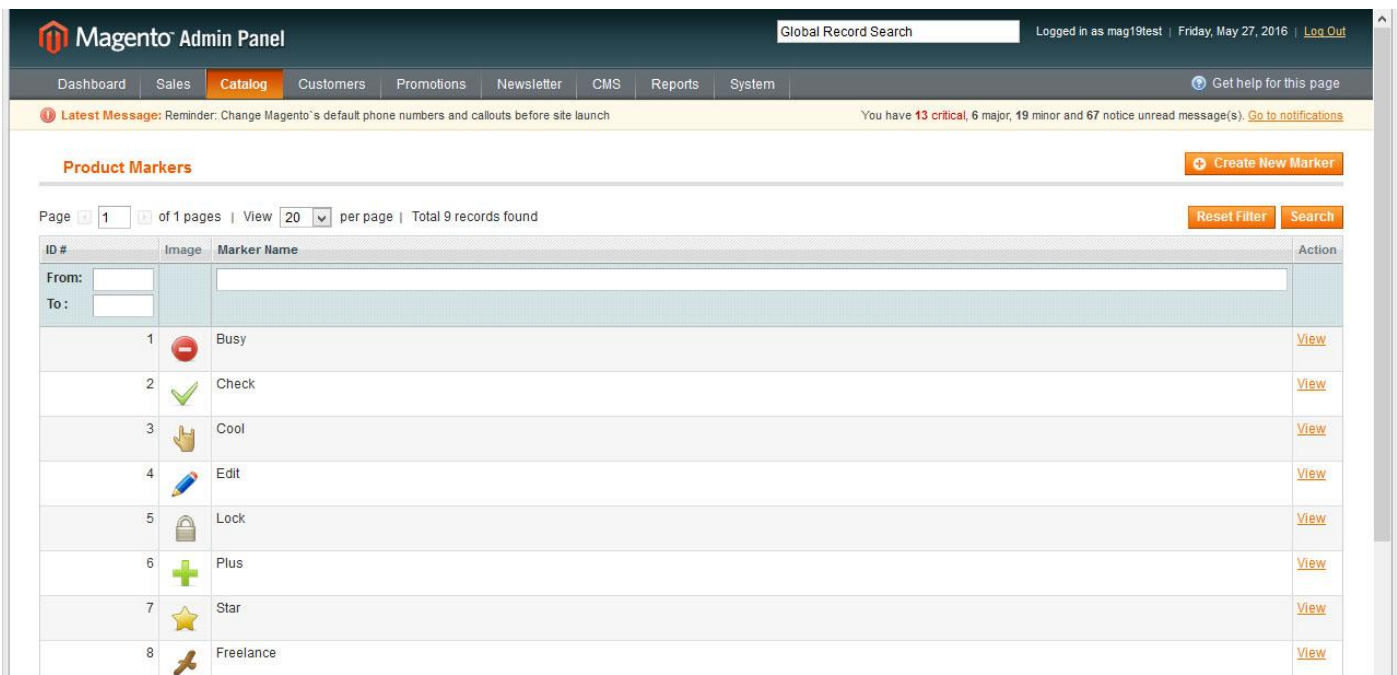

The screenshot shows the same 'Manage Products' page as before, but with a 'Change Marker' dialog box open over the 'Test Product 2' row. The dialog box has a 'Marker type' dropdown menu set to 'Check', a 'Notes' text area containing the same Lorem ipsum text, and buttons for 'Cancel', 'Delete', and 'Update'.

Set new marker or edit existing

Add new types of markers to system

Go to **Catalog — Manage Products — Product Markers**

Here you can see all markers in your system.

The screenshot shows the Magento Admin Panel interface. At the top, there's a navigation bar with 'Catalog' selected. Below it, a 'Product Markers' section is visible. It includes a 'Create New Marker' button and a table listing 8 markers. The table has columns for ID #, Image, Marker Name, and Action. The markers listed are: 1. Busy (red minus icon), 2. Check (green checkmark icon), 3. Cool (hand icon), 4. Edit (pencil icon), 5. Lock (lock icon), 6. Plus (green plus icon), 7. Star (yellow star icon), and 8. Freelance (wrench icon). Each row has a 'View' link in the Action column.

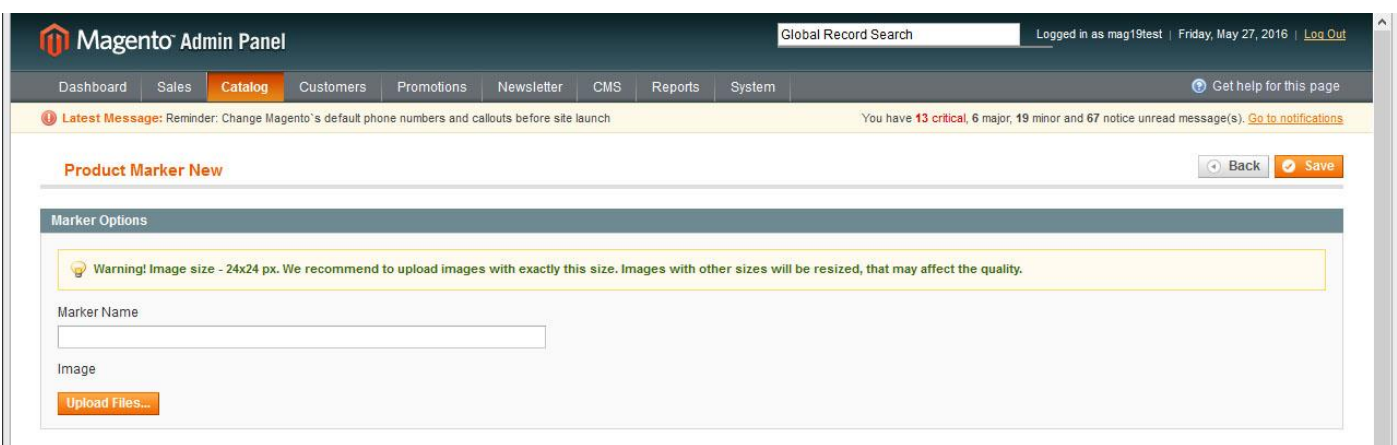

ID #	Image	Marker Name	Action
1		Busy	View
2		Check	View
3		Cool	View
4		Edit	View
5		Lock	View
6		Plus	View
7		Star	View
8		Freelance	View

Product Markers admin extension page

You can:

- Add new markers (**Catalog — Manage Products — Product Markers — Add New Marker**)
- Delete or edit any marker
- Use filters to find required markers

To add new marker click on **Create New Marker** button on the top right corner of page. To edit any marker click on line with it in the table.

The screenshot shows the 'Product Marker New' form in the Magento Admin Panel. It includes a 'Back' and 'Save' button at the top right. Below the buttons, there's a 'Marker Options' section with a warning message: 'Warning! Image size - 24x24 px. We recommend to upload images with exactly this size. Images with other sizes will be resized, that may affect the quality.' There are input fields for 'Marker Name' and 'Image', and an 'Upload Files...' button.

Add new or edit existing marker

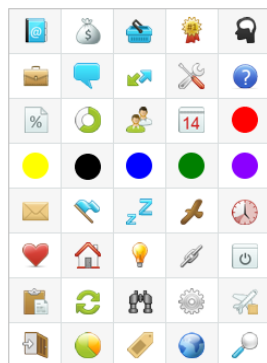

Warning! Image size - 24x24 px, .png with transparent background preferred. We recommend to upload images with exactly this size. Images with other sizes will be resized, that may affect the quality.

There are big pack of free bonus icons for your markers included. Check folder with extension and this manual.

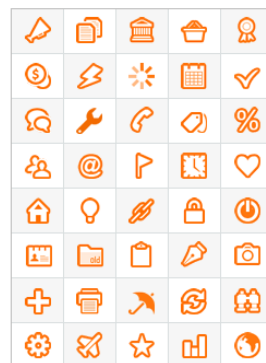

Basic Integrated icons

Colored icon pack

Orange icon pack

Enjoy the extension!
